Comment: I am writing to comment on Draft Advisory Opinion 2007-31. I urge the Commission to reject Draft AO 2007-31, and permit individual credit card contributions made online through ActBlue to be matched under the Matching Fund Act.

As drafted AO 2007-31 is antithetical to the spirit of the enabling legislation, which was intended to make the playing field between large and small donors more level. Cutting out a large number of small Internet-mediated donations by organizations such as Act Blue would be so at odds with the purpose of the campaign financing laws as to be arbitrary and capricious.
